**Subject:** FW: [OFFICIAL] - Sedgemoor:13/18/00040/DD Land to the North of, Grange Farm, Main Road, Cannington [2494]

Dear Adrian,

As requested by the Council's Ecological Officer, I'm pleased to copy below a response from the applicant's ecological consultants Country Contracts, with attachments. As you will see the tree identified as having 'low' bat roosting potential is located on neighbouring land just off the eastern corner of the site, adjacent to the area where the pumping station is shown on the indicative site plan.

The ecologist makes further comment regarding otters, which were also mentioned in the Officer's response.

The applicant has no objection to the ecological conditions recommended by the Officer.

I hope this is helpful and please let me know if you have any further queries in this matter.

Kind regards,

Andrew Preston
